WE ARE SUNSLIFESTYLE

We are a British, independently-owned outdoor lifestyle company committed to bringing you premium, fully-weatherproof pergolas and furniture collections ready to transform your garden.

Designed for life outdoors, our products combine innovative, consciously-sourced materials with robust construction techniques. Offering low-maintenance, stylish design and unrivalled quality.

Our team of experts are on hand to support you with your project, large or small. Creating a bespoke outdoor space to enjoy season after season.

A TRUE EXTENSION OF YOUR HOME

The garden is an integral part of your home and can be enjoyed in many different ways. If you love the al fresco lifestyle and you want to make the most of your outdoor space, a pergola is an excellent investment. These ready-to-use structures often do not require any planning permission and can be placed freestanding or as an overhang from your home or garden building.

The Suns Lifestyle pergola collections offer innovative models, in a market-leading range of sizes. It couldn't be easier to create a stylish, contemporary all-season shelter at home.

OUR PERGOLAS

These functional and ready-to-use terrace-coverings are an excellent way of enhancing your outdoor space for all-year-round use. The Suns Lifestyle collection of aluminium pergolas are available in a range of sizes and configurations to create a distinct and contemporary look at home.

The key feature in the pergola's unique design is the roof louvers. Crafted from double-layered high quality aluminium, our manual and electric louver mechanisms allow you to control the direction of the blades creating an open or closed space. The genius built-in drainage system means that if the weather changes, just close the louvered roof to make the area weatherproof, any rainwater that lands on the louvers will flow into the guttering channels and drain through the legs to the ground.

Flexible side options offer more shelter, shade and comfort giving an all-season weatherproof area.

IT'S ALL IN THE DETAIL

WHY CHOOSE A SUNS LIFESTYLE PERGOLA?

All of our pergolas are made from high quality 100% rust-resistant aluminium, they come in a range of sizes to offer solutions for every outdoor project. We work with robust, industrial grade aluminium which is why you'll find that the component parts might be heavier than other models in market. This is why we offer a professional nationwide installation service for our outdoor structures, ensuring each one is safely constructed, with all screen components working and fixed securely to the foundations to withstand the elements for year-round enjoyment.

OPTIONAL SIDES

When it comes to shade and shelter, no pergola is complete without screens or side panels. Choose our aluminium louvered panels (available on the Luxe Pergola Collection) or fixed aluminium vented panels on our Maranza Pergola Collection.

INNOVATIVE MECHANISM

Whether you prefer manual or electric, our pergolas are designed to provide optimum comfort. Choose from electric louvered, electric retractable or manual louvered for a pergola perfectly suited to your needs.

Combining innovation and quality, we don't think you can beat the streamlined finish of an aluminium pergola. The roof louvers on our manual and electric pergolas are double layered meaning they can withstand higher rainfall versus single skin options found elsewhere.

The synchronous roof panels on our retractable pergola slide open to create a large open space above your terrace. When closing, the panels press together firmly on the integrated beams, ensuring optimum insulation.

Our pergolas feature a clever hidden drainage system that carries rainwater off the roof, into channels and down inside the legs.

READY TO SHOP?

Explore our range of pergolas on page 29.

You can also explore our range on our website, [sunslifestyle.com](https://www.sunslifestyle.com) where you can find plenty of useful information on finding the perfect pergola for your space, along with inspiration on how to style your pergola.

OUR SCREENS

Made from double-layered Textilene, we're really proud of our weatherproof screens.

Held in cassettes that fit seamlessly into the pergola frame, they slide down tracks in the legs to give you shade, shelter or sun whenever you want or need it.

You won't find any brackets to hold them or gaps along the edge.

With a ziplock function that anchors into the base of the leg, our robust screens are an excellent investment for those bringing the indoors out.

The robust fabric is water-repellent, fade and mould-resistant making our screens durable and easy to clean.

Our screens are built with spring-loaded runners, once released, screens retract fully back into the cassette.

BRING THE INSIDE OUT

Our louvered aluminium pergolas are available as both freestanding and wall-mounted options. Ideal when you want to seamlessly transition from inside to outside.

When fixing to the external wall, often we can remove the middle of 6-leg to accommodate bifold doors. Having a pergola over bifolds can really reduce heat transfer and glare, often making it a more attractive and practical alternative to blinds.

Our in-house installation teams are experts when it comes to the orientation and positioning of our pergolas, so any questions they'll be happy to advise.

THE FINISHING TOUCHES

We're sticklers for detail, it truly sets our products apart.

Combining reliable design with innovation, we're proud of the details that set a Suns Lifestyle pergola apart from the rest. Whether you choose a manual or electric model, each component is designed to offer ease of function at the twist of a handle, or touch of a button.

Our double-layered roof louvers offer enhanced protection from the rain.

When shopping around, here's our pre pergola checklist:

- ✓ Can the company offer guidance on foundations?
- ✓ Can the company provide floorplans for leg placement and orientation?
- ✓ Check the company you're purchasing from can install for you.
- ✓ Do they have an in-house installation team? (not delivery drivers)
- ✓ Does the company have customer images of jobs they've installed already?
- ✓ Does the company have insurance to install your pergola properly?
- ✓ Will they bolt down for you? This is vital for a secure structure.
- ✓ Does the company physically stock the product?
- ✓ Does the company have first hand product knowledge?
- ✓ Is the company based in the UK?

At Suns Lifestyle we confidently fulfil all of the above, our installation service is tried and tested with over 4800 happy customers and we're used to working with our customers on the best solution for their outdoor space.

THE LUXE ELECTRIC RETRACT

PERGOLA

From full sun to degrees of shade, control your level of shelter with the Suns Lifestyle Luxe Electric Retract Pergola.

Crafted from industrial-grade aluminium, the Luxe Electric Retract Pergola can be tailored to any size and space with buildable base kits. Choose your size and layout, including L and U-shaped custom builds.

This model offers one of the cleanest design aesthetics and function for outdoor living. The synchronous roof panels on our retractable pergola slide open to create a large open space above your terrace. When closing, the panels press together firmly on the integrated beams, ensuring optimum insulation. The Luxe Electric Retract Pergola is perfectly suited to domestic and hospitality projects thanks to the cover and comfort provided, no matter the weather conditions.

Customise your Luxe Electric Retract Pergola with side options including weatherproof deluxe screens, fixed or sliding vented aluminium panels for a versatile outdoor shelter that adapts to elements.

Combine the Luxe Electric Retract Pergola with the Blenheim Outdoor Modular Kitchen system for an entertaining space designed to delight your guests all year round. All lighting and roof mechanism functions can be fully controlled.

**ELECTRIC
RETRACTABLE ROOF**
Sun or shade, wet or dry: you decide!

WEATHERPROOF ROOF
Shelter from the rain with a weatherproof roof and smart drainage system; rain runs into the concealed gutter and drains internally through the legs.

OPTIONAL SIDES
• Aluminium Louvered Panels
• Sliding Aluminium Louvered Doors
• Deluxe Weatherproof Screens
(Manual and Electric Options Available)

Both our aluminium panels and doors have an open & close function. Create a full wall or place apart for a feature walkthrough or backdrop. Or choose our easy pull-down Deluxe screens offer robust protection from the sun, wind and rain – electric and manual options available.

LEG BOOT
Our pergolas are secured to the ground using a leg boot that disguises all fixtures and fittings.

THE LUXE ELECTRIC LOUVER PERGOLA

Suns Lifestyle signature quality combined with innovative build options, the Luxe Electric Louver Pergola is a class of its own. We've taken our manual pergola roof louver systems and reimagined them with technology to give you shade, shelter or sunshine at the touch of a button.

Side options include weatherproof deluxe screens, fixed or sliding vented aluminium panels for a versatile outdoor shelter that adapts to elements.

From an outdoor cinema set up, to dining al fresco with friends, the Luxe Electric Louver Pergola offers flexible shelter to suit your lifestyle perfectly. All lighting and roof mechanism functions can be fully controlled.

THE LUXE MANUAL LOUVER PERGOLA

Our signature manual louvered roof system gets an upgrade. Developed with invaluable customer feedback, we've enhanced our original contemporary manual louvered pergola to give you even more comfort and control over the build options.

The Luxe Manual Louver Pergola can be configured to fit any space thanks to our innovative base & build kits - adapting and increasing the footprint to best suit your space. Crafted from industrial grade aluminium, the Luxe Manual Louver Pergola is available wall-mounted or freestanding and can also be configured as an L or U-shaped build.

Side options include weatherproof deluxe screens, fixed or sliding vented aluminium panels for a versatile outdoor shelter that adapts to elements.

Create the ultimate outdoor entertaining space with Suns Lifestyle's weatherproof lounge, dining and kitchen collections, each fully compatible with the Luxe Pergola.

Top height of roof beam	2.50m
Underside of roof beam	2.34m
Louvers fully open	2.54m

Maximum clearance for doors to open underneath is 2.34m

THE MARANZA

LOUVERED PERGOLA

Create your perfect outdoor retreat with the Maranza Louvered Pergola – perhaps an al fresco space to entertain, a cosy area for a corner sofa or a cover for your hot tub. Ideally suited as a freestanding structure offering a 4-sided solution to your outdoor living space.

INDEPENDENT SECTIONS

Each roof section operates independently offering flexibility to let the sun in across the whole roof or just each section.

MANUAL LOUVERED ROOF

Sun or shade, wet or dry: you decide!

WEATHERPROOF ROOF

Shelter from the rain with a weatherproof roof and smart drainage system; rain runs into the concealed gutter and drains internally through the legs.

OPTIONAL SIDES

Easy pull-down Deluxe screens offer robust protection from the sun, wind and rain. Or choose an aluminium vented panel for a stunning, contemporary backdrop.

- Weatherproof Deluxe screens
- Aluminium vented panels

FOOTPLATE

Our pergolas are secured to the ground using a footplate, with a cover applied over the top to conceal the connections. This means all of our pergolas have a clean finish with no unsightly bolts.

MULTIPLE SIZES

Height: 2.30m

3.0 x 3.0m	3.5 x 5.4m
3.0 x 3.6m	3.5 x 7.2m
3.5 x 3.6m	

DIMENSIONS

Top height of roof beam	2.30m
Underside of roof beam	2.16m
Louvers fully open	2.34m

Maximum clearance for doors to open underneath is 2.12m

WE RECOMMEND

If you need a higher external door clearance than 2.12m, take a look at our taller Rota model.

THE ROTA

LOUVERED PERGOLA

The Rota stands 20cm taller than the Maranza which makes it a perfect overhang above bi-fold doors. The construction of an outdoor terraced area is no longer a complicated building project, this is a smart solution with a long lifespan. The manual louvers open fully vertically on the Rota and they conveniently move as one system on the 4-leg models, or dual on 6-leg models for bespoke shade and shelter.

MULTIPLE SIZES

Height: 2.50m

3.0 x 3.0m	3.0 x 6.0m	3.6 x 5.3m
3.0 x 3.6m	3.6 x 3.6m	3.6 x 6.0m
3.0 x 4.0m	3.6 x 4.0m	3.6 x 7.2m

DIMENSIONS

Top height of roof beam	2.50m
Underside of roof beam	2.35m
Louvers fully open	2.57m

Maximum clearance for doors to open underneath is 2.35m

SCREEN OPTIONS

Weatherproof Deluxe screens can be added to all sides of the pergola, if required.

NOT SURE WHICH PERGOLA IS FOR YOU?

Take a look at our Pergola Comparison Guide on page 29, or get in touch with our expert team to discuss your pergola requirements in more detail.

HOW TO MEASURE YOUR SPACE

Before choosing your pergola it's important to measure where it will sit to ensure it fits your space perfectly. First, you need to decide where you would like your pergola positioned — freestanding or against your home. Our handy measuring guide will help guide you on how to measure your space in each of these scenarios. We recommend taking all measurements in centimetres.

If you need some assistance in deciding which pergola is right for you, you can send your measurements, along with any photos to us at survey@sunslifestyle.com

AGAINST YOUR HOME

1. Measure from the top of your doors to the patio floor
 2. Measure the brick/stonework between the top of your doors and soffit (if there is one)
 3. Measure patio door width
 4. Measure the patio floor to the underside of soffit (if there is one)
 5. Measure the patio floor to the underside of the gutter (if there is one)
 6. Measure the width of your patio or decking
 7. Measure the length of your patio or decking
- 🕒 Which direction does your garden face?

WHICH DIRECTION IS YOUR GARDEN FACING?

Whether your pergola will be against your home or freestanding, it's important to note which direction your garden faces. This will determine which pergola is most suitable for your space, giving you maximum sunlight and shade when required.

FREESTANDING SPACE

1. Measure the width of your patio or decking
 2. Measure the length of your patio or decking
- 🕒 Which direction does your garden face?
